

Biathlon Race # 4, 15 January 2007

This race was a Relay Format race with each racer, competing as an individual rather than as a team member, shooting two times and skiing three laps on a pleasant holiday afternoon. In relay format racers were allowed five shots loaded by magazine and three extra shots loaded individually by hand; shooting was required to continue until all targets were hit or all eight bullets were fired. Each target not hit after eight shots required skiing a penalty lap. Racers age 10-12 (younger junior) shot only from the prone position and skied three 1.0 km course laps (3.0 km); those age 13/14 (junior boys/girls) shot from the prone position and skied three 2.5 km course laps (7.5 km); those age 15+ (senior boys/girls, youth men, master men) shot P-S and skied three 3.3 km course laps (10 km). Two junior boys raced up a class, in the senior boys class.
